

Seiler Design Solutions news brief is your quarterly snapshot of the latest news, brief summaries, and helpful insights & tips from our experts in the field and office.

Get to know us!
Meet Lauren Kunz

Hi everyone!
For those of you who haven't met me yet, my name is Lauren, and I'm the Marketing Coordinator here at Seiler Design Solutions. You may hear from me regarding any upcoming promotions or events. I am also acting as a second set of eyes and ears for your sales rep, so I may contact you on their behalf from time to time.

A little more about me: I have a Bachelors of Fine Arts from Maryville University in St. Louis, with a major in Graphic Design and an emphasis in Marketing. I have a background in Interior Design and spent my college years working as a sales rep and flooring designer at a "big box" home improvement retailer chain. In my free time, I enjoy doing my own home improvement projects, gardening, spending time outdoors, and going on family adventures. And I have a 2-1/2 year old son that keeps me on my toes!

Please feel free to reach out to me at any time, and if you have any questions, comments, concerns, or feedback, I'd love to hear it!

Help us help you!

We have put together a survey to get a better idea of what types of webinars would be the most beneficial to you! The survey has only 4 short questions and for your time, Seiler will hold a random drawing on December 14th, 2018, for one lucky winner to receive a Visa gift card for \$50.00!* (see details of Rules & Regulations on the Greeting page of the survey)

[Complete the survey HERE for your chance to win!](#)

DS Knowledge Corner

Autodesk Desktop Connector Download and Update!

What is the Autodesk Desktop Connector? - The Desktop Connector is a desktop service that integrates an Autodesk data management source (or data source) with your desktop folder and file structure for easy file management.

If you've been looking for the Autodesk Desktop Connector and Update download location, look no further as we have both listed below.
